

Shailesh Ramkisoen

Student Software Developer

ABOUT ME

My name is Shailesh Ramkisoen, 18 years old, and I am a Software Developer student at the Grafisch Lyceum Rotterdam. As a junior full stack developer, I enjoy working on both front-end and back-end. I am social, eager to learn, and solution-oriented. With my passion for technology, I continue to develop myself.

EDUCATION

Grafisch Lyceum Rotterdam
Program: Software Developer
August 2022 – Present
Focus Beroepsacademie
Profile: Media, Design & ICT
September 2018 – June 2022

ABILITIES

As a junior full stack developer, I am strong in both front-end and back-end development. I work well in a team but am also independent and focused when needed. My creativity shines through in designing user-friendly interfaces, with attention to both UI and UX, ensuring the applications are both intuitive and visually appealing.

QUALITIES

- **Communication:** Clear in conveying ideas and actively listening.
- **Collaboration:** Good at teamwork and contributing to a positive atmosphere.
- **Focus:** Able to work independently and goal-oriented.
- **Creativity:** Coming up with practical and visually appealing solutions.
